

# STEWART Industries

**Leaders in Quality Control and Process Integration**

We act as an extension of your manufacturing operation to streamline production, ensure quality, and implement cost-effective processes so that you maintain your competitive edge.

## Value Added Sub Assembly

- Scalable and customizable to integrate with your process
- Adaptable to meet multi-tier needs
- Just-In-Time process
- Defect-free performance
- Full engineering support
- Continuous Improvement approach
- Highly trained, performance-driven team

## Light Manufacturing

- Injection Molding
  - 100-600 ton open capacity
  - High volume mass production
  - Prototype
  - Die Design/Testing capable
  - Service requirement consolidation
- Metal Stamping
  - 60-1200 ton open capacity
  - Progressive
  - Transfer
- Multi-discipline solutions
- Prompt lead times

## TMQ - Total Manufacturing Quality Inspection Services

### Our Expertise:

- Quality control
- Qualified Reporting
- Dock Audits / Containment
- In-process Inspection
- Error-proofing design
- Final Audits - Reporting and Tracking

### Our Value:

- Quick response and turnaround
- Dedicated line to ensuring quality
- Performance analytics and reports

## Kitting, Sequencing, Sorting

- Custom, long term or specialized programs
- Project design and execution to customer specifications
- Warehousing
- Rework/redesign to specifications
- Nationwide support
- Inventory management
- Purchasing
- Cost tracking
- Create procedure efficiencies
